Overview

Built for the job: 2026 International MV Petersen TL3 20ft/30cu.yd. Grapple Truck This new 2026 International MV is a dependable addition to any heavy-duty fleet. Powered by a Cummins B6.7 diesel engine delivering 250 HP, this truck is paired with an automatic transmission and a 4x2 drive configuration for efficient operation. The vehicle features a clean white exterior and left-hand drive steering. With only 100 miles on the odometer, this unit is in new condition and comes State DOT certified. Whether you are expanding your current operations or upgrading your equipment, this grapple truck provides the power and reliability needed for demanding tasks.
