Overview

Built for the job: New 2026 International HV615 S13 Allison powered 60k GalFab Roll-Off Truck... Ready to Roll!! This new Class 8 roll-off truck is ready to handle heavy-duty hauling with a gross vehicle weight of 66,000 pounds. It is powered by a 13-liter International Motors S13 diesel engine delivering 450 HP, complemented by a turbo and engine brake for optimized performance. The drivetrain features an Allison RDS 6-speed automatic transmission with overdrive and a 3.73 ratio in a 6x4 configuration. Designed for durability, this white truck includes Hendrickson HMX460 suspension, tandem rear axles, and 11R22.5 tires on aluminum/steel wheels. The standard cab provides a comfortable operator environment with A/C, power steering, cruise control, and power windows and locks. Additional conveniences include heated mirrors and a tilt/telescope steering column, all on a 254-inch wheelbase.
