Overview

This 2026 GLOBE 75DD140909 is a heavy-duty steel trailer designed for maximum efficiency and durability. It boasts a massive 75 cubic yard capacity and a gross vehicle weight of 68,000 pounds, making it ideal for demanding hauls. The unit is equipped with a tandem fixed spread axle system and air ride suspension for a smoother ride, riding on all-steel wheels with 225/73Rx22.5 tires. For ease of operation, it features an electric tarp system and a side hinge gate. Additional professional touches include two-speed landing gear, a front-mounted ladder, and a 30-inch kingpin setting. Complete with fenders and mud flaps, this trailer is ready to hit the road.
