Overview

Why Buy this 2027 INTERNATIONAL HV Roll-Off? Upgrade your fleet with this new 2027 International HV roll-off, engineered for maximum durability and efficiency. This Class 8 powerhouse is driven by a 370 HP Cummins L9 diesel engine, paired with a smooth 6-speed Allison RDS automatic transmission featuring overdrive and a 4.10 ratio. Built for heavy loads, it boasts a 66,000 lb GVW, a 6x4 drive configuration, and a robust Hendrickson HMX460 suspension. The chassis is equipped with all-aluminum wheels, 11R22.5 tires, and a 254-inch wheelbase. Inside the standard cab, you will find modern comforts including cruise control, power windows, power locks, and heated mirrors. With a turbo, exhaust brake, and differential lock, this white

workhorse is ready for the toughest jobs. This unit is in pristine condition with only 85 miles and is State DOT compliant.
