Overview

The Capacity TJ 5000 is an off-highway and DOT yard truck equipped with a Cummins ISB6.7L engine providing 200 horsepower at 2400 RPM, and a Cummins 6.7 TF4 engine with 164 horsepower. This model is designed for moving trailers within protected facilities, particularly in warehousing environments, and can handle loads up to 81,000 lbs. The dealer highlights its durability and performance for light manufacturing and distribution applications.
