Overview

The Capacity TJ 9000 is an off-highway and DOT yard truck designed for extra-heavy-duty applications, featuring a GCVWR of up to 200,000 lbs. Buyers will appreciate its one-piece structural steel frame and all-steel cab. This unit is noted for its robust performance and includes the Capacity DURA-RIDE® independent rear air spring suspension for a smoother ride. The truck is in showroom condition, ready for demanding jobs.
